Plexineon Highlights

Plexineon is Out of This World

How do you capture people's attention in a town that is already other-worldly? Even McDonald's needed to do something a little different in Roswell, NM to capture the attention of hungry travelers.

Photo courtesy of Commercial Lighting & Electric

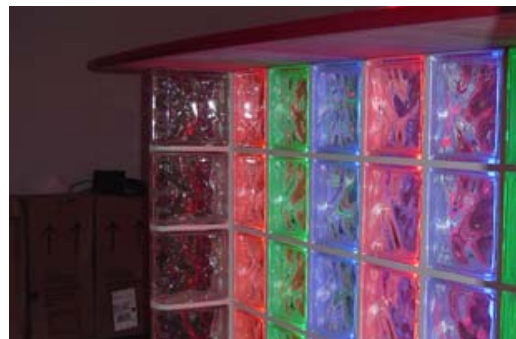

For this out-of-this world location, red and amber Plexineon highlighting the lines of the "space ship" are the perfect choice with its modern LED spin on glass neon.

Distributor & Installer: Commercial Lighting & Electric

Plexineon & Residential Lighting

Do you think of Plexineon lighting only for commercial applications? This Florida resident wanted to spruce up the game room in his new multimillion dollar home. This game room features a contoured, tiered tray ceiling highlighted with three different Plexineon colors. The bar is accented with Plexineon between two glass blocks, creating an unusual light effect.

Arch Rep: SESCO of Florida

Distributor: Rodney Harvey, Raybro of Florida

Installer: Brian Kolb, Woodson Electric Construction

Plexineon Showroom

Japanese Distributor Makes Plexineon Showroom

There is nothing like seeing Plexineon in use, and nothing better than showing more than straight runs. So thought our Japanese distributor, Sugatsune Kogyo Company, Ltd., headquartered in Tokyo, Japan.

Sugatsune is one of the premier distributors in Japan and has been selling Plexineon for theaters, corporate accent lighting, gas station chains, and more. Since they have clients that visit them all over Japan, they dedicated an entire room to Plexineon as well as incorporated the product in numerous locations in their six floor showroom.

Universal Power Supply

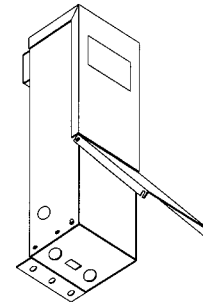

iLight is offering a new 100 Watt universal power supply that works with 120 / 240 / 277 VAC 50/60Hz; output is 24 VDC. The product is RU listed for U.S. and Canada and is enclosed in NEMA 3R enclosure.

Dimensions:

8 5/8" x 3 1/2" x 4 1/4"

Manufacturer's warranty of three years.

Expected life span is between three and ten years.

iLight has discontinued the indoor and outdoor power supplies in lieu of this new model.

iLight Model # PN10124DCR-3RU
