

NEW

Hypnotica Color Changing Series

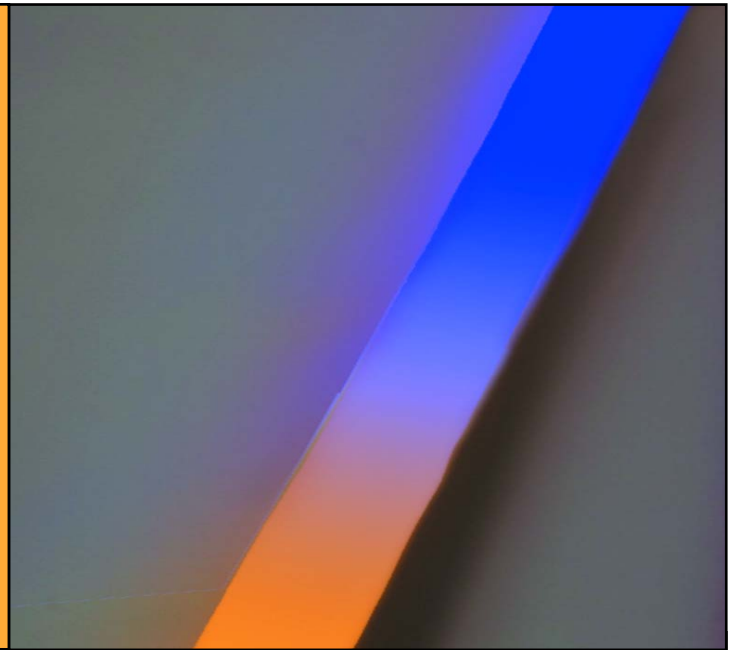

A new, sleek and hypnotizing
direct view LED color changing solution

Hypnotica iS Color Changing Series

Hypnotica™ Color Changing Technology

iLight Technologies introduces a new, sleek and hypnotizing linear LED lighting fixture with a full spectrum of color changing possibilities using the latest RGB technology.

Hypnotica iS offers smooth, even light output along the entire length of the fixture, making it a visually rich and captivating direct view system. Designed to fit in the most discrete areas, Hypnotica is sure to create entrancing effects and environments - whether used as interior or exterior accent lighting or in cove applications.
