## 2008

### Case Study: TAMU Bonfire Memorial

The Texas A&M Bonfire Memorial is a striking monument. Dedicated to those who lost their lives in the tragic collapse of the 1999 bonfire, the lighting design team at **Bos Lighting Design** wanted to convey a feeling that was subtle and reflective.

The focal point of the memorial, known as the "Spirit Ring," features [iLight's Amber Plexineon](#) lining the inner and outer rings to create a gentle golden glow, a central design element of this stunning memorial.

*To read more about iLight's application in the memorial, click on the attached PDF file.*

### New [Hypnotica Color Changing Series](#) Shipping Now

Our hypnotizing color changing fixture offers designers:

- Smooth, even color

## MIDDLE EAST

### iLight Patent Count Reaches 45

iLight continues to strengthen its position globally as a leading innovator of LED lighting technologies with the award of its 45th patent. The patent, Canada 2,488,494, is for an illumination device for simulating neon lighting through the use of fluorescent dyes. With 44 patents pending and more being filed every quarter, iLight's IP pipeline remains strong.

### iLight to Exhibit at Light Middle East Trade Show

The Middle East is experiencing phenomenal growth providing opportunities for unique lighting solutions. iLight will be exhibiting at the show for the first time on May 25 to 27, 2008 in Dubai, U.A.E.
