

Suspension Mounting Systems

Create an Incredible Look,
while Reducing Installation Time,
Cost and Complexity.

Suspension Mounting Details

Multiple Options:

- Rod or aircraft cable (single canopy, mid-point connection to single cable to canopy, multiple canopies)*
- Lengths of up to 240" for cables and 72" for rods

We Make Installation Easy:

- We layout suspension kits based on the drawings for the luminaires
- Then we create a drawing of the layout to facilitate installation
- Suspension kit for each fixture individually bagged and labelled
- Suspension kits and fixtures ship together
- Field support available

* Optimal aircraft cable system will be influenced by the design and layout.

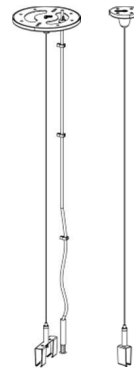

**Aircraft cable:
single canopy**

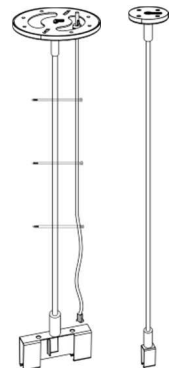

**Aircraft cable:
mid-point connection to single cable to**

**Aircraft cable:
multiple canopies**

Fixed rod
