For more than a decade, iLight has been manufacturing an LED Handrail Lighting System, as an OEM, for the largest manufacturer of architectural hardware, C.R. Laurence. iLight is pleased to now offer an upgraded handrail lighting system exclusively to the specification market through iLight’s architectural representatives.

**PRODUCT INFORMATION**

- 3000K (211 lumens* / foot)
- 3500K (211 lumens* / foot)
- 4000K (211 lumens* / foot)
- 6500K (211 lumens* / foot)

(* Lumen data based on actual light output of luminaire, not the higher output of the “raw” LEDs. Measured with 60° asymmetrical lens.)

- Beam Spread Options
  - 60° asymmetrical
  - 65° symmetrical
  - 110° symmetrical

- Other color temperatures and lower lumen outputs are available.

- Class 2 24 VDC
- Individual light engines are 1 foot
- Run lengths of 10 feet possible
- Can be field cut in 4-inch increments
- 20 feet per power supply (two 10’ runs)
- Standard hardware diameter options: 1.66", 2", 2.5", 3", 3.5", 4"
- For use with compatible C.R. Laurence handrail models or hardware designed and manufactured to appropriate specifications
- Suitable for Wet Locations

**FEATURES & BENEFITS**

- Proven high quality
- Lighting Designer and Electrician not responsible for field measurements, the handrail installer is.
- Respective components provided by experts in those domains: LED light engine by iLight and hardware by C.R. Laurence (when C.R. Laurence handrail specified)
- Easy to assemble and install
- Custom handrails shapes and colors available through C.R. Laurence
- Multiple handrail diameter options
- Energy efficient
- Long lifetime
- Stable and consistent color temperature
- Low voltage
- Cool to the touch
- Suitable for Wet Locations

**iLight Handrail Lighting System**

Cross section of C.R. Laurence handrail hardware GR16 and iLight Handrail Lighting System

| Specification | C.R. Laurence ("CRL") handrail hardware model compatible with iLight Handrail Lighting System, including CRL Cap Rail models:  
- GR16 (diameter: 1.66", 42.2mm)  
- GR20 (diameter: 2.0", 50.8mm)  
- GR25 (diameter: 2.5", 63.5mm)  
- GR30 (diameter: 3.0", 76.2mm)  
- GR35 (diameter: 3.5", 88.9mm)  
- GR40 (diameter: 4.0", 101.6mm)  
or custom CRL hardware designed to meet the specifications of the iLight Handrail Lighting System.  
Specification in the "Metals" division.

</table>
| Field Measurements | Handrail Installer | Not Required  
Small variations from plan to actual would not significantly change costs for the iLight Handrail Lighting System.  
- iLight light engine comes in 1-foot sections, cuttable every 4 inches  
- Housing & lens come in 6-foot sections and are field cuttable  
- Up to 20 feet per power supply; (two 10-foot runs) |
| Installation  | Handrail Installer                   | Electrical Contractor               |
